

Deposit Bonus

Bonus is applied by your account manager, once the funds are credited, the amount of the deposit together with the bonus will be credited to your account. There is no limit on the number of deposits to which the bonus can be applied.

2. The amount depends on the shares, which take place in the company.

3) Bonus can be used for real trading, for increasing leverage and for taking advantage of successful trading situations at full power. Bonus is not subject to any restrictions during trading.

4. Bonus cannot be lost during trading. If the equity on your account becomes equal to or lower than the bonus, the bonus will be deducted from your account. We are not responsible for possible losses in that case.

5. The deposit bonus is intended to increase trading activity. The bonus will be deducted from your account after one year, if not used in full by then.

6. In the case of withdrawals from the account, including internal transfers, the bonus will be completely removed.

7. In order to simplify the calculations, the trading account to which the bonus has been applied, will be blocked for outgoing internal transfers to other accounts of the client.

8. In exceptional circumstances, in the form of a special offer, the bonus amount may reach up to 500%.

9. In case the company believes that the bonus is used for illegal purposes, the firm has the right to cancel the bonus issued, as well as transactions on the trading account, on which the bonus has been credited.

Depositing and withdrawing funds without commission

1. The ParadTrade platform offers its clients the service of depositing and withdrawing funds without commissions.

2. The commission charged by the bank payment system is not compensated.

3. Fair usage policy applies to this promotion. The Company reserves the right to apply a commission of 10.75% of the deposited amount and 6.5% of the withdrawn amount, but no less than \$50, to compensate the Company for the deposit and withdrawal costs. In case, between deposit and withdrawal, the client has not made transactions with total volume of standard lots, equal to the amount of deposit divided by 200, which difference between opening and closing price was at least 3 points.

Invite a Friend

1. ParadTrade platform offers its clients to recommend the company's services to other users and receive a commission of 15% of the first deposit amount of the referred client's account.
2. The commission is credited after the referred client has made the required minimum trading turnover (total volume of closed transactions in standard lots equal to the deposit sum divided by 20) and performed at least 50 closes of transactions. Only trades in currency pairs, as well as gold and silver, where the difference between the opening and closing prices is not less than three points, are taken into account when calculating the minimum turnover.
3. Commission can be paid without reaching the minimum trading turnover if the client's negative P/L on trading accounts was 95% or more of the deposited amount, but not earlier than 30 days after making a deposit to the account.
4. In case of depositing using bank cards or any other high-risk methods, the commission will be paid only after the attracted client has undergone the complete identity verification procedure.
5. In connection with high risk of illegal use, the company has the right to demand to pass the procedure of confirmation of identity to the referrer, before making charge or payment of commission to him.

Insurance against losing trades

1. Under the terms of this promotion, the Client's selected trades are insured against a negative result. If a deal has a negative result, the funds are compensated to the balance of the user's trading account.
 2. You can participate in this promotion only after your personal manager confirms it.
- The promotion applies only to deals, which were agreed upon with a personal manager. 4.
4. Insurance only applies to clients who confirmed their participation in advance.
 5. Insurance is credited to the total amount of losses calculated on the basis of all selected trades.
 6. Refunds for a deposit within this promotion are treated as a bonus and may be withdrawn from the account only provided that the minimum trading volume requirement is met: 1 standard lot of closed trades for each \$20 of bonus funds. Only trades with a minimum 3 point difference between opening and closing prices are taken into account. In case of withdrawal of any amount from the account, all returned funds not covered by the minimum trading volume will be deducted from the account.
 7. If the compensation received is not used in trading for three consecutive months, the accrued funds or their unused balance will be withdrawn from the account after one year from the accrual of compensation.

8. A deposit of at least \$5000.0 is required to take part in the promotion.
